

I WOULD LIKE TO RESTORE
YOUR
RIGHT
TO DRINK RAW MILK.

Ron Paul

Hard as it is to believe, the federal government is actually spending time and money prosecuting small businesses for the “crime” of meeting their customers’ demand for unpasteurized milk!

Recently the Food and Drug Administration conducted a year-long sting operation targeting Rainbow Acres Farms in Pennsylvania. As a result of this action, Rainbow Acres’ customers will no longer be able to purchase unpasteurized milk from this small Amish farm.

Many Americans who the government wishes to deny the ability to purchase unpasteurized milk have done their own research and come to the conclusion that unpasteurized milk is healthier than pasteurized milk.

These Americans have the right to consume these products without having the federal government second-guess their judgment about what products best promote health.

If there are legitimate concerns about the safety of unpasteurized milk, those concerns should be addressed at the state and local level.

—Ron Paul, speaking on H.R. 1830, legislation he introduced to the House in May 2011 to decriminalize the interstate sale of unpasteurized milk and milk products
